# *Workers at Ideal Plant Move to Quit CIO*

## Irked By Quarrel Over Reds

### Seek to Join AFL Unit

Revolting against the parent local and the International officers of the United Electrical Workers on the issue of communists in union offices, Ideal Electric company employes have begun a movement to quit Local 758 UE (CIO) and affiliate with the AFL.

**The issue came to a head at a meeting of Local 758 when Ideal employes tried to bring the question of barring communists from holding office and requiring them to sign non-communists affidavits before the floor.**

Tom Harrington, Mansfield, R. D. 1, spokesman for the insurgent Ideal Electric group, said proposals were to be offered as a constitutional amendment but whenever a proponent of the measure took the floor he was shouted down with boos and cat-calls.

The rebelling group from Ideal also wanted to bring action on measures designed to prohibit the Progressive (Wallace) party from using the local's meeting hall and to oust Arthur Wernick as business agent because of his affiliation with the Progressive party and "other radical groups," Harrington said.

**FAVOR AFL**

He added that a majority of Ideal's 278 workers had signed application cards expressing their desire to affiliate with the International Brotherhood of Electrical Workers, AFL.

A representative of the IBEW arrived in Mansfield yesterday to help organize Ideal and to iron out legal and other questions.

**That union, however, cannot serve as collective bargaining agent for the Ideal Electric employes until the National Labor Relations Board holds an election to determine which union the workers want to represent them.**

Informed sources declared that the ever-widening breach between the International UE officers and Mansfield locals union might spread to other plants now represented by Local 758. They include Hughes-Keenan, Martin Steel Products company, Humphryes Manufacturing company and the Ohio Brass company.

Harrington said that although the Ideal employes' action was not the result of the recent action by Local 711 (UE) at Westinghouse, it was motivated by the same desire to rid the union of communists and fellow travelers.

Two weeks ago, Local 711 voted to bar communists and other members of subersive organizations from holding office in the union.

## Film Makers Rush To Correct Error

NEW YORK —(UP)— Warner Brothers rushed new sound tracks to theaters showing the film "June Bride" today. In anticipation of a Dewey victory a line in the dialogue had been changed to say "from McKinley to Dewey." New sound tracks will correct the error.

## *Protest Crowded Buses*

Richland County Superintendent of Schools Boyd Robinson promised parents of Mifflin township school children a new bus for the area at a meeting today after parents complained that between 70 and 78 children ride daily on a 48-passenger bus.

**L. W. Hartman, Crider road, who represented the parents at the meeting, said the matter was taken directly to Supt. Robinson today after too few Mifflin school board members showed up at the called meeting of board members and parents at Center Hall school last night.**

"The small children have to stand on the buses because the larger children won't let them have the seats," Hartman explained. "There's no order on the buses and the parents feel it is much too dangerous to have so many children packed in such small vehicles.

**CROWDED 2 YEARS**

Hartman said the crowded situation on the buses has continued for the past two years.

**He added that the parents of Mifflin township pupils also will ask the American Legion for financial help for the township.**

He maintained that approximately 75 per cent of the school children in the township come from Vetsville, a tax-free American Legion project and that two bond issues still haven't been sufficient to finance construction of a centralized school to replace the one-room schools in the district.

## Meeting of Big 4 Seen

### European Press Makes Prediction

LONDON — (INS) — The election of President Truman revived reports in Europe today of a possible meeting of the American chief executive with Premier Stalin and British and French government heads.

The political writer of the London Daily Times Express who related new talk of the confab of the Big Four high command explained that no steps have been taken to arrange such a meeting but said such a session cannot be ruled out.

The press in France generally agreed that the Truman victory gives enormous strength of the hand of the United States in international affairs.

**The French feel that the American election will speed formation of a United States of Europe and the conclusion of a North Atlantic defense pact.**

Western Germans generally hailed the results as assuring a continuance of U. S. foreign policy guaranteeing the rehabilitation of Germany.

Italians felt the development augurs well for future Italo-American relations.

The London Daily Mail said that Truman has gained for himself an immensely more powerful position than he had before.

## Associates Hint Truman Likely to Drop Marshall, Forrestal, Krug and Sawyer

WASHINGTON—(U.P.)—President Truman may begin his first elected term in the White House with four new faces among his nine cabinet advisers, associates said today.

Sources close to the White House said that among those missing from the new cabinet probably will be Secretary of State George C. Marshall, Defense Secretary James Forrestal, Secretary of Interior J. A. Krug, and Secretary of Commerce Charles Sawyer.

Reasons for their expected replacement range from personal desire to presidential displeasure with those who paid scant attention to his campaign.

Mr. Truman is said to have made no final decisions as yet on whom he will put in their places. But his opportunity will come sometime before inauguration day, Jan. 20. It is traditional for cabinet members to submit their resignations prior to that date to give the President a freer hand in making his plans.

Certain to remain aboard the White House ship, intimates say, are Secretary of Labor Maurice J. Tobin and Secretary of Agriculture Charles F. Brannan. Both campaigned mightily in Mr. Truman's behalf.

Secretary of Treasury John W. Snyder, an old friend of the President, is expected to stay on, for awhile at least. He and his family contributed $8,000 to the election campaign.

Postmaster General Jesse M. Donaldson looks good to presidential intimates, too. A career man in the department, his appointment was seen as an indication that Mr. Truman meant to take post office activities out of the "political plum" division. There is no evidence that he has since changed his mind about it.

The question mark, according to administration insiders, is Attorney General Tom Clark. He had a thriving law practice in Texas before entering the government, and has been known to express a desire to return to it. However, Clark has started several important anti-trust proceedings lately and may want to remain on the job to see them through.

## U. S. Moves To Soften U. N. Action

### Favors Amending British Proposal

PARIS —(INS)— The United States moved today to take the teeth out of an Anglo-Chinese resolution providing for sanctions against Israel.

Authoritative sources said that the new American strategy had been "cleared through Washington," indicating that it had President Truman's approval.

**American delegate Philip C. Jessup told the United Nations Security Council that the U. S. favors certain amendments of the British-sponsored "tough" proposal which the Jews have condemned.**

Jessup proposed that the resolution drop specific references to economic and military sanctions against Israel. He advised the formation of a special committee to study the problem and report on it.

The reported move to soften the sanctions provisions came as U. N. circles expressed the view that President Truman's election victory opened the way for America to seize the initiative in activities of the world organization.

**The step was said to have been decided upon at a conference last night of leading American delegates, including Secretary of State Marshall, Mrs. Eleanor Roosevelt, Warren Austin, Dr. Philip Jessup and Republican foreign affairs expert John Foster Dulles.**

Virtually all delegates in Paris, including representatives from behind the "iron curtain," anticipate a stiffening of the American anti-Soviet policy and termination of indecision.

The chief hope of many is that Secretary of State Marshall, who has expressed a wish to retire, will remain in his post. Marshall is considered a basic pillar in the solid western front set-up for an economic political and military bulwark against communism.

## *18 Killed, 1 Missing After B-29 Crashes*

TAMPA, Fla. — (AP) — An Air Force B-29 crashed on a takeoff from Lagens field in the Azores yesterday, killing 18 of the 20 men aboard, MacDill field reported today.

One man was missing. Another survived with major injuries. Capt. George Byrnes, public information officer at MacDill, said.

The plane was one of a number returning to the United States from England. It was from the 307th bomb group based at MacDill.

## Stock Market Makes Gains

NEW YORK— (UP)— Buyers came into the stock market today and prices strengthened after yesterday's post-election selling.

Opening prices were up fractions to more than a point.

Market experts said selling on President Truman's election had been overdone and hence the market was in a position to recover.

Trading was much lighter although a few stocks opened on blocks ranging to 7,000 shares in Commonwealth and Southern which firmed ⅛ to 3⅜.

Most rails had fractional advances.

Mystery Solved

## *Changing of Winds Caused Smog Deaths*

DONORA, Pa.—(UP)—A change in prevailing winds was blamed today for causing a five-day "death smog" over this Monongahela valley community where 19 persons lost their lives.

The incident, one investigator said, might well have happened in Brooklyn, in northern New Jersey or in Los Angeles, which also have smogs.

It happened here because Donora is locked in a pocket of the industrialized river valley with mountain ridges on all sides of the town. Usually, it was explained, prevailing winds blow across the valley at this point and prevent fog, or smog, from developing for long periods of time.

Just a week ago fog began settling in the "pocket," but there were no prevailing winds that day. The fog settled more and more. Smoke and fumes from the tall chimneys of the American Steel and Wire company, and particularly the company's zinc smelting plant, were trapped under the blanket that settled tighter and tighter upon the Donora pocket. For five days there were no prevailing winds.

Residents of this community began noticing a sweet taste in their throats. They coughed. They became ill. At least 19 died.

**As investigations neared completion today, the mystery began to clear. It was learned that a state department of health report tomorrow will say that the smog contained chemicals, perhaps some sulphur dioxide, but not enough to be considered dangerous to health.**

The report, it was said, may give the steel company a "clean bill," but may suggest changes before the zinc plant is put back into operation.

One chemist pointed out that prolonged exposure to polluted air is more dangerous than periodic expdsure, even though the concentration of poison may be more during the brief period. In the case of Donora, it was pointed out, the smog went around the clock for five days.

## Navy Plane Missing

SEATTLE, Wash. —(UP)— A four-engine navy plane with 12 men aboard is missing off Port Moller on the northern coast of the Alaska peninsula, the Seattle coast guard said today.

**CONSISTENT, AT LEAST**

EIGHTY EIGHT, Ky. — (UP) — Final vote tabulation today showed: Truman 88, Dewey 88.

## Official Count Begins

### Election Board Re-checks Figures

The Richland County Board of Elections today began making an official count of the votes cast in Tuesday's election. Board Clerk Thomas R. Zeigler said he hoped the count could be completed by Monday.

**In that event, the board will meet that day to go over the count. At the same time the board will consider a number of disputed ballots cast in the election.**

Making the official count are Zeigler and Mrs. Pearl Scott, Republicans, and Walter Underwood, deputy clerk, and Mrs. Aneita Davidson, Democrats.

If there should be minor changes in the final tally, the results probably won't be altered much since most candidates won by appreciable margins.

An issue that won't be decided until the official tally is in is Mansfield's $500,000 sewer bond issue proposal. The unofficial tally shows 10,043 votes for and 5,439 votes against, or a 64.78 per cent of the vote, just twenty-two hundredths of one per cent of the 65 per cent majority required for passage.

**A $24,000 Mifflin school board bond issue passed by a vote of 368 to 64, or by a majority vote of 85.2 per cent.**

A re-check of the $80,000 Madison schools bond issue discloses that the unofficial tally was 1,293 for and 338 against, or a majority of 79.3 per cent. Bond issues require a 65 per cent majority to pass.

## Court Finds Japs Guilty Of Charges

### Tojo, 24 Others Are Convicted

TOKYO —(U.P.)— The Far East military tribunal convicted Japan of waging aggressive war today in the opening pages of a lengthy judgement containing the verdicts and sentences in the war crimes trial of former Premier Hideki Tojo and 24 other war leaders.

**Final judgment against the defendants may not be known for another week. Verdicts and sentences, guarded with great secrecy, are contained in the final pages of the judgment.**

Tribunal President Sir William Webb of Australia, pronouncing the preliminary judgments, declared that the Japanese military seized control of the government from civilian leaders in a struggle that started during the Meiji era, considered the dawn of modern Japan.

The decision to launch Japan on wars of aggression was made at a cabinet meeting on Aug. 7, 1936, Webb said, and one month later the Japanese armies plunged into China from their foothold in Manchuria.

Webb announced that 38 charges were dropped because they duplicated other charges in the sweeping indictments brought against the Japanese war leaders.

Among the counts dismissed was number 39, which charged Tojo and 16 other defendants with "murder" in the underclared attack on Pearl Harbor.

**This charge stated that the Japanese war leaders "unlawfully killed and murdered Admiral Kidd and about 4,000 other members of the naval and military forces of the United States, and certain civilians whose names and number are at present unknown.**

The court was jammed and heavily guarded today when the defendants were brought in to hear their fate pronounced after two and one-half years of trial proceedings and deliberation.

Only 22 defendants appeared in court. Three others were too ill to attend.

Tojo appeared with his customary expressionless demeanor in the prisoner's' docket, doodling and taking notes as Webb announced the findings of the court.

## Third Party Effort Poor

WASHINGTON — (U.P.) — The election showing of Henry A. Wallace's Communist-supported Progressive party was the poorest of any highly organized third party movement since the turn of the century.

The Wallace - Taylor ticket polled little more than 1,000,000 votes — a mere two per cent of the combined Truman-Dewey total. Wallace had predicted he would get "millions."

But he had hoped and expected to go into the election with broad labor support. Instead, among labor, he was backed only by the left-wing minority of the CIO. Most of the rest of organized labor fought the Wallace party as a creature of the Communists.

Wallace's own hopes for future success assume that he can enlist labor support.

## GOP Girds For Long Struggle

### President Goes Back to Capital

WASHINGTON — (AP) — Republicans closed their shattered ranks today for a two-year fight in Congress against a certain effort by President Truman to modernize the New Deal.

Mr. Truman returns to Washington and a welcome-home celebration tomorrow the hottest article in American politics, as the result of his upset victory over Gov. Thomas E. Dewey.

He will be off Sunday for a two-week breathing spell at Key West, Fla.

**When he comes back, it will be time to shape up the legislative program which he promised last night will be based on the Democratic party platform.**

Mr. Truman told a home-town victory celebration in Independence, Mo., he wants every citizen to help him carry out his "tremendous responsibility for the peace and welfare of the world."

"I am going to do the very best I can to carry out that Democratic platform as I promised to do in my speeches around the country," he said.

**LARGE ORDER**

That is a large order.

Besides efforts toward winning a lasting peace, the platform pledged such things at home as (1) curbs on "Republican inflation," (2) "comprehensive" housing legislation and (3) tax reduction "whenever it is possible to do so without unbalancing the nation's economy."

**The platform also called for (1) repeal of the Taft-Hartley act, (2) a 75-cent an hour minimum wage to replace the present 40-cent figure, (3) extension of social security coverage, (4) a national health program, (5) federal aid to education (6) a farm price support program, (7) repeal of the oleo taxes, and (8) strengthening of civil rights.**

Election-chastened Republicans won't oppose all of those. In fact, Dewey was for some of them.

But if the Republicans were maimed by the one-man gang activities of Mr. Truman in Tuesday's voting, they weren't dismembered.

A lot of them won't be back in Congress. But the Republican leadership there will remain the same, with Rep. Joseph W. Martin jr. (Mass.) bossing the house minority and Senator Robert A. Taft (Ohio) continuing to run things pretty much on the Republican side in the senate.

## Chest Only $7,000 Short

A total of $115,010 was reported by Community Chest workers at noon today toward the 1948 goal of $122,635. The drive, which was extended one week, closes at 5 p. m. tomorrow.

**The Blue Stars unit now has a substantial lead in the two major divisions of the drive with $60,039. The Red Feathers unit has $54,971.**

C. A. Crim, agent of the Erie Railroad company, presented a check for $500 to the Community Chest. This is the first time that a railroad company has made a contribution directly to any philanthropic organization in Mansfield.

The Ohio Brass and Gorman-Rupp companies completed their quotas today. The Brass company had a quota of $8,475. Gorman-Rupp's quota was $890.

## News-Journal Circulation Goes Over 26,000 Mark

The Mansfield News-Journal has passed another important milestone in its history.

The average daily circulation of The News-Journal has now exceeded the 26,000-mark. The Sunday circulation had passed 26,000 more than a month ago.

**News - Journal Circulation Manager W. W. Bowden reported today that for the month of October, the average daily sale of News-Journals was 26,061 copies.**

For the Sunday News-Journal during the same month, the average sale was 26,341 copies per Sunday.

Bowden explained that the growing circulation figures reveal two factors of vital importance to the business, civic and industrial progress of Mansfield. These two factors, he said, are:

"The city is continuing its steady growth through continuous addition of family living units, and the expanding circulation in the territory around the city and even outside Richland county, indicates that ties between the city and surrounding rural area are being continually strengthened.

"Naturally, these factors are of vital importance to Mansfield business, particularly to those retailers whose merchandising messages are carried in the columns of the paper," Bowden said, adding:

"This growth and its indication that the city and its adjacent areas are continually growing closer together lends emphasis to the fact that the unique combination of urban and rural life in this area sets Mansfield apart as one of the best places in the United States to live and work."

*'Couldn't Have Been More Wrong'*

## Pollsters Comb Statistics, Hunt Alibis

NEW YORK — (AP) — The poll takers were still combing through statistics today — trying to find out why their figures misled them into forecasting the election defeat of President Truman.

Latest comment from one of the country's major public opinion researchers came from Elmo Roper, director of the Fortune magazine poll.

"I don't know why I was wrong," he said.

Roper predicted on Sept. 9 that Gov. Thomas E. Dewey would get 52.2 per cent of the vote compared to 37.3 for Truman. He said then a Dewey victory was so clearly indicated that no further surveys would be made.

"I could not have been more wrong," said Roper.

He suggested several "possibilities" that might have caused the mistake.

"Perhaps," he said, "the abnormally high 15 per cent 'don't know' vote we received last August did not distribute equally to both major candidates as it has in the past, but that this time it all went to Truman."

Or it could have been, he added, "that the labor vote, brought out to the polls more quietly but more efficiently this time, turned the tables."

Dr. George Gallup, whose American Institute of Public opinion predicted Dewey would get 49.6 per cent of the vote and Mr. Truman 44.5 per cent, said he believed an analysis of voting statistics would reveal the reason for the error.

He said the answer may also come from a further survey among voters.

Archibald Crossley, director of the Crossley poll, said the election results "clearly show what happens when one party gets out its vote and the other does not."

He said the Crossley poll, which forecast 49.9 per cent of the vote for Dewey and 44.9 for Truman, found voters apathetic toward both candidates shortly before the election.

The public opinion polls, he said, may have "served to redouble Democratic efforts to bring out the vote and may have created over-confidence among Republicans."

# Bookmakers Take Beating

## Oddsmakers Get Solace In Silence

ST. LOUIS —(INS)— President Truman's victory for a full term in the White House hurt certain other persons besides the Republicans.

The betting fraternity — the bookmakers — took a terrific trimming, financially speaking.

**They offered eight to one odds that Mr. Truman would be defeated by Gov. Thomas E. Dewey of New York. And they were wrong. Very wrong, as the returns from Tuesday's election testify.**

Gov. Dewey was a one to 15 favorite to win. A bettor had to put up $15 in order to win a dollar in event the governor defeated the President.

A bettor wanting to lay money with oddsmakers in the presidential contest had to put up a dollar to win eight dollars on Mr. Truman.

No oddsmakers in St. Louis would discuss how much money they will have to pay out to people who figured Mr. Truman had a chance and put up money to prove their feelings.

But one oddsmaker moaned:

**"All the money was on Truman. The bettors bet like they voted. The bookmakers took a nasty trimming. There was money on Truman from every place in the country. A lot of people may be happy today, but the bookmakers aren't."**

How much money was won by those wagering on Mr. Truman?

The oddsmaker wouldn't talk about that. Neither would others who are in the same business.

From where I sit ... by Joe Marsh

"Husbands, Wives, and Marriage"

Maybe you read that survey published recently in a national magazine, entitled "Husbands, Wives, and Marriage."

It showed that among *happily* married couples, those who criticized *themselves* outnumbered those who criticized the other person. Among unhappily married couples, it was just the opposite—each one tended to criticize the other.

That's the way it is in our town, as I guess it is in yours. Criticism, whether it's of a wife's taste for hats, or a husband's taste for pipe tobacco and an evening glass of beer or ale, is a sure start towards unhappiness.

As for what *made* happy marriages, *companionship within the home* was listed most important of all. And from where I sit, a husband and wife who can spend an evening by the fire—with nothing more exciting than a mellow glass of beer, and a friendly conversation—are a truly well-matched couple!

*Two New Commemorative Issues Due*

# Mansfield Philatelists Get Stamp News

Two more three-cent commemorative postage stamps will be issued by the post office department this month, Acting Postmaster Curtis L. Ford announced today.

A Lincoln's Gettysburg Address commemorative will be issued through the Gettysburg, Pa., post office Nov 19. The stamp marks the 85th anniversary of the speech.

Nov. 20 an American Turners society centennial commemorative will be issued through the Cincinnati post office.

**The printing of 60,000,00 of each of the stamps has been authorized. Both will be issued in sheets of 50 subjects.**

The central design of the Lincoln stamp shows a reproduction of a statue of Abraham Lincoln in left center. To the right is a plaque with the wording, "That government of the people, by the people, for the people, shall not perish from the earth." A lighted torch is shown on a dark panel background in the right portion. Across the bottom border is a palm branch over which are the words, "U. S. Postage." The denomination is in the upper left corner.

At the top of the American Turners stamp is the wording "U. S. Postage." Below this is a torch throwing light on the history of the American Turners. To the left and right of the torch are a pair of hanging rings used for physical training. Within the rings are the dates "1848 and 1948." Below the rings are the words, "One Hundredth Anniversary of the." In a circle below this is the national emblem of the society which reads, "American Turners, Sound Mind, Sound Body" with a Greek model of an athlete about to throw a discus.

**To the left and right in the lower portions are ribbons with the words, "A Century of Health." The denomination is shown on the shields in the lower corners, and at the lower sides are oak branches.**

Collectors desiring first day cancellations should send no more than 10 addressed envelopes to the postmaster of the issuing post office. A postal note or money order to cover the cost of the stamps to be affixed should be enclosed.

The Mansfield post office expects to receive its supply of each stamp a week or 10 days after the date of issue.

# Plaque Site Markers For Ohio Cities Urged

Erection of suitable plaques designating the marks of distinction of Ohio cities is proposed to local chambers of commerce and service clubs by Fred J. Milligan, state director of commerce. He feels that many Ohio cities, so to speak, are hiding their marks of distinction under a basket.

The cities' lack to advertise and properly mark their historic sites and places of general interest prompted an editorial in the Cleveland Plain Dealer. Excerpts from the editorial follow:

"Director Milligan advocates that Ohio cities possessing historic structures or distinguished natural attributes so inform visitors and tourists by putting up suitable plaques where principal highways enter those cities. He thinks that places of interest within the cities should be clearly designated, and so do we.

"Every person entering Bainbridge, on U. S. Route 50 in Ross county, should know that there stands the structure which housed the first dental college in the United States. Persons visiting, or just passing through, Findlay ought to be apprised that it is the home of Tell Taylor who write 'Down by the Old Mill Stream.'"

It would be of interest to considerable numbers of people traversing the National highway through Zanesville to know it is the birthplace of one of the best known writers of western stories, Zane Gray. Motorists driving into Westerville, on Route 3, ought to be informed the home of Benjamin Hanby, who wrote "My Darling Nellie Gray," is there.

"Urbana, justly famed as the home of probably the smallest college (junior) in the nation, ought to make that known, along with the fact that a phrase, without which Americans could scarcely communicate with one another, "O. K.," came into being there. Cities which were the homes of the Ohions who were president of their country ought to advertise that fact better than they do."

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

ALLIS-CHALMERS
Model C Tractor

The measure of a good tractor "buy" is work-power per dollar — useful work-power on *your* farm. Compare the Model C with any other tractor of its size:

- Reasonable price.
- More horsepower per dollar than any other tractor in its class.
- Tricycle type — adapted to all farm work.
- Available with hydraulic lift, belt pulley and P.T.O. attachment.

It's good farm business to own a Model C. It's economical to operate; has front-mounted implements for straight-ahead vision.

# Standard-Bearer Days Through, Dewey States

NEW YORK—(INS)—Gov. Thomas E. Dewey, defeated in one of the most astonishing reversals of form in the history of presidential races, announced today, never again would he seek the highest office in the land.

**The twice-beaten standard-bearer of the Republican party, smiling but nonetheless showing the gruelling effects of the long campaign and his fruitless vigil through the night, denounced as "pure fiction" a report that he would retire immediately as governor of New York.**

He added, however, he had "no such plans" to run for a third term as chief executive of the Empire state, an announcement which served to move him close to the end of a glittering political life.

Obviously touched by the spontaneous applause of reporters and cameramen who had been with him through his long quest of the White House, Dewey looked around and said:

"Ladies and gentlemen, I am just as surprised as you are. We were all wrong together."

**Dewey strongly defended the type of campaign he had waged, a campaign comparatively free of traditional vituperation and one whose keynote was closer unity within the country.**

"I do not owe my loss to any technical blunder," he replied in answer to a reporter's question.

"When I spoke to Gov. Warren shortly before my wire of congratulations to the President we agreed that we had waged a clean and constructive campaign. I have no regrets."

# Russia Hints Possible War, Again Rejects Atom Control Plan

## Canadian Plan Hit By Russia

### Predicts Failure For U. N. Control

PARIS —(INS)— Russia's Andrei Vishinsky hinted again today that the Soviets posses the atom bomb and implied a possibility of conflict if a Canadian plan for atomic energy study is adopted.

The statements of the Russian deputy foreign minister were made in the United Nations general assembly during debate on atom control.

**He again rejected the Canadian proposal, approved by the political committee, which calls for the Big Five powers plus Canada to decide if and when it is opportune for the U. N. Atomic Energy commission to resume work on a formula for international atomic control.**

Vishinsky urged adoption of a Russian proposal calling for simultaneous destruction of present atom bomb stockpiles and introduction of international control

Vishinsky charged that the United States controlled the political committee and that the majority over which Amercia wields power intends to "hold a sword of Damocles over the heads of peoples of the world—or at least as long as they think they have this sword of atomic energy."

He asserted that if the Canadian resolution wins assembly approval the "state which now controls atomic weapons . . . would control the life and destinies of other states even more than the United States presently is doing."

In his 90-minute last-ditch plea for acceptance of the Soviet plan, Vishinsky declared that the U. S. is attempting to evade international atom control at all costs.

**In implying the possibility of conflict if the Canadian plan is adopted, Vishinsky warned that "the people of the world would pay with their sweat, blood and lives."**

He termed the Soviet plan a "big step forward" and insisted the Canadian proposal was "made out of general phrases and abstract formulas . . . which will result in failure and fiasco."

France meanwhile announced its support of the Canadian resolution.

India's chief delegate presented an amendment proposing a resumption of work by the atomic energy commission which already has been approved by the political committee.

## Truman Set to 'Modernize' New Deal, GOP Girds For Row

(Continued From Page 1)

tion to Mr. Truman's proposals. Most of the 42 Republicans left in the senate and the 174 remaining in the house are used to voting against the Truman administration. And there aren't many new faces among the Republicans

Taft and Martin are likely to figure that the battered GOP's best chance for a comeback in 1950 rests with making Mr. Truman look bad on his campaign promises.

The president made the Republican-controlled 80th congress the top issue in his campaign, calling it that "awful" "second worst" and "idiot" congress.

Now his party has control by an apparent 260 to 174 margin over the Republicans in the house (there is one minor party member) and a certain 54 to 42 edge in the senate.

**Whether Mr. Truman can get much more in the way of legislation out of such a Democratic-controlled congress remains to be seen. Southern Democrats who have never been too enthusiastic about some of his policies will be back in the saddle as chairmen of many of the important committees.**

They may have a new respect for Mr Truman as a political windmill who can chop down the opposition at the ballot boxes But a lot of them think the president carried southern states simply because he was the Democratic candidate and not because—for instance—he advocated repeal of the Taft-Hartley act

Mr Truman won all but four Dixie states in the face of his proposals to legislate against race segregation and to strengthen other civil rights

This probably won't stop at least 21 southern members from joining in a filibuster if any such proposals get to the floor of the senate. Senator Pepper (D-Fla.) is an in-and-outer in the filibuster camp.

COMMITTED TO REPEAL

To satisfy the labor support which helped him carry some of the big industrial states, Mr. Truman is committed to proposing repeal of the Taft-Hartley act.

But many Democrats who rode back into office with him would have to turn political hand springs to go along on that one.

And the Republicans who didn't have to run or who came back are not necessarily convinced that a vote for the Taft-Hartley act was fatal to those who didn't return.

They point out that Senator Cooper (R-Ky.), who voted against the act, went down in the Democratic tide along with some of those who favored it.

On the other hand, Senators Saltonstall (R-Mass.), Ferguson (R-Mich.) and Wherry (R-Neb.), supporters of the act, won re-election.

The Republicans were more inclined to think they lost the election because midwestern and western farmers were afraid of a change in administration might hurt their prospects for future price supports reclamation services and other benefits

## Wets, Vets Rival Dem's Triumphs

### Kansas Breaks Long 'Dry' Spell

(By United Press)

The election was almost as disastrous for the nation's drys as it was for the Republicans.

The returns showed today that the wets won in five or six states where proposals concerning drink were submitted to the voters.

**Proposals for bonuses for World War II veterans got a mixed reception. Five states endorsed them, two voted "No." In three other states where returns are incomplete, bonus proposals were winning in two and losing in one.**

In Kansas, the voters repealed a 68-year-old prohibition amendment and gave the legislature authority to set up a state-controlled liquor sale system.

Other wets vs. dry results.

Washington — Incomplete returns showed approval of licensed sale of drinks in hotels and restaurants, and defeat for a proposal to abolish wine and beer taverns.

Colorado—A proposal to extend local option to all political subdivisions of the state was defeated.

South Dakota—A proposal to ban sale of liquor in food stores was snowed under by 100,000 votes.

**California—Twin proposals to give local authorities control of liquor sales and the right to bar minors and unaccompanied women from bars went down by a two-to-one margin.**

Oregon—Dry forces once more defeated proposed licensing of the sale of drinks in hotels, restaurants and clubs.

In Indiana, South Dakota, Iowa, Washington and Louisiana, voters approved schemes for veterans bonuses ranging in state totals from $30,000,000 to $142,000,000.

Incomplete returns showed similar proposals winning in Minnesota and Oregon. But in Missouri, bonus supporters were taking a licking at the half-way mark.

## *21 To Become New Citizens*

Five persons were added to the list of those who will be granted United States citizenship this afternoon. Twenty-one are expected to take the oath of allegiance from G. E. Kalbfleisch, judge of the common pleas court.

They are: Mrs. Lydia Bambach, 360 Second avenue, Gottfried Brumm, 130 Blanche street, Miss Dolores Raboquer, 323 Prescott street, Mrs Elizabeth Meng and Andrew E. Meng, 343 Davis road, and Norman J. Lucas, 924 Wooster road.

## Rep. Thomas Before Jury

WASHINGTON — (UP) — Rep. J Parnell Thomas, R., N J., was scheduled to appear before a federal grand jury today to answer charges that he padded his congressional payroll

Thomas has termed the "kickback" investigation a political "smear" by Attorney General Tom C. Clark. He asked for an opportunity to testify before the grand jury after the elections.

**U. S. Attorney George Morris Fay said. "We haven't received any word from him," since the grand jury voted to hear Thomas. But friends said the congressman planned to keep his date at 10 a. m. EST.**

Thomas, who has been chairman of the House Un-American Activities committee, was re-elected Tuesday to a seventh term. However, he will lose his chairmanship when the Democrats organize the House in January.

## Ohioan Nails 2 Escapers

### Lone Officer Makes Capture

LISBON —(INS)— A lone Lisbon night patrolman captured two escapees from the Western penitentiary in Pennsylvania early today in a one-sided gun battle.

Escapees Eugene West and Anarian White, alias Andrew White, wanted in Ohio and Virginia, did not return the fire, he said.

Zahrndt said the men escaped Nov. 1 by digging their way out of a boilerroom where they worked. He said they used a shovel, hoe, bucket and a prying bar for the two-year task, and hid the loosened earth in one of the boilers.

**West was serving a nine-to-18 year sentence for robbery and was reported as an escapee from the Mansfield, O., reformatory.**

Zahrndt said the escapees forced their way into a truck driven by Forrest Martin of Kingston under a death threat.

West and White refused to obey commands to leave the truck, so he blasted two shots into the rear of the cab, Zahrndt said

"They got out in a hurry after that," he added.

# Bucyrus Ups Rates on City Collections

## Sewage, Garbage, Water Affected

BUCYRUS—Increase in water, sewage and garbage collection rates will become effective Jan. 1 under terms of resolutions adopted by city council.

**The new minimum water rate for domestic consumers will be $5.25 per quarter compared with the present $3.75 minimum; sewage rate will be doubled, upped from $1 to $2 quarterly, and garbage collection will cost $2 quarterly instead of the present $1.50.**

Commercial rates for the services also will be increased proportionately, Service Director Floyd Pfleiderer said. New commercial water rates will be: 10 persons or less, 13 cents per person a month; 11 to 50 persons, 10 cents per person, 51 to 100 persons, nine cents per person, and more than 100, eight cents per person.

**Mayor R. L. Hertzer told councilmen the increases were necessary to provide additional revenue to finance the extensive waterworks improvement program now underway.**

Mayor Hertzer also informed council that an increase in long distance telephone tolls in the Bucyrus area is in the offing as the Public Utilities Commission of Ohio has set a hearing date for a review of the present rates.

# 4 Die In Flames As Mother Prays

NEW YORK — (AP) — While a woman was singing the Lord's Prayer for neighbors downstairs, her three small children and their cousin died in a flash fire which destroyed a Harlem apartment last night.

# Juvenile Delinquency Termed Problem of Entire Community

Probate Judge Stuart H Cramer told members of the Optimist club yesterday that juvenile delinquency is not only a problem of the home and church, but a social problem for the general community.

Cramer spoke at the noon meeting on "Juvenile Delinquency."

Speaking of the activities of the juvenile court, he said that for a time the number of cases had materially increased but that they were leveling off now.

He said the court is faced with an acute problem. A detention home was formerly maintained at Salvation Army headquarters and the Salvation Army recently notified the court that it was going to use the quarters.

**Cramer said there is a need for a detention home for children who should not be returned to unhappy home environments while their cases are being decided. He added that he is trying to make arrangements with people in Mansfield to take such children into their homes.**

The slogan of the Optimist club is "Friend of the Boy," and the club sponsors a junior Optimist club at Friendly House.

Ernest Stauffer was program chairman of the meeting.

Next week the club will observe Optimist week.

# Shelby Church to Hold 125th Anniversary Rites

SHELBY — The 125th anniversary of the First Presbyterian church will be observed Sunday with special services both morning and evening.

In the morning there will be the reception of new members and the baptism of children, and Rev. Darwin M Haynes, pastor of the church since 1913, will speak on the theme, "What Mean These Stones?" The evening celebration will include a church family dinner at 5:30 p. m., at which various older members of the congregation will take part, followed by a candle light ceremonial service in the sanctuary at 7.30, to which the general public is invited.

A further feature of the celebration will be the display of pictures and relics of former years in the history of the congregation and the opening of the box taken from the cornerstone of the old church after it was destroyed by fire more than 50 years ago This box and its contents also will be placed on display in the new chapel of the church.

**Various members of the congregation are expected to attend the family dinner and evening candle light service dressed in the garb of former years, which will add to the atmosphere of celebration appropriate to the occasion. A souvenir history of the local congregation will be distributed to those attending the services, which has been prepared after careful research by Dick Cook, present chairman of the board of trustees.**

The first meeting of the Presbyterian church was held in 1823 at the home of a "Mr. Smith," at what was then known as Taylor's Corners, now Taylortown, with six persons present. Their petition to presbytery for a charter resulted in the appointment of Rev. Mr. Rowland, of Mansfield, as minister, who came at frequent intervals to the homes of various members to conduct services and administer the sacraments.

**The first church building was a log cabin located on the farm of John Kerr, but this was not used because of the inconvenient location. A frame building was then constructed just southwest of where the Shelby Ice company now stands. The first Sunday school was organized in this building in 1834, with Calvin Clark as its superintendent. A third building was constructed in 1852 in this location, and is today a part of the plant of the Shelby Ice company.**

In 1892 the congregation constructed a modern brick structure on High School avenue. But this building was destroyed by fire in January, 1900, after which property was purchased on North Gamble street and the present red stone structure erected. The present building was reconstructed after another disastrous fire which occurred on Feb. 14, 1905. An extensive remodeling program has been adopted by the congregation, who have begun a financial program looking toward the replacement of the pipe organ and the modernization of the building to meet the needs of the fast growing congregation.

PAGE FOUR MANSFIELD, OHIO THURSDAY, NOVEMBER 4, 1948

It was interesting to note that, in discussing the election outcome, no one seemed more surprised than some of those who had voted for Truman.

Now safely ensconced in the waste basket are those prepared-in-advance columns in which "experts" made selections of cabinet members for Dewey and told what to expect during his administration.

## Truman and Congress To Be In Accord

AFTERMATH is the word, as the American people either joyfully or regretfully accept the verdict of Tuesday's Democratic sweep and start readjustment of their mental processes to continuance of the present national administration for another four years—this time with a Democratic Congress made responsible for the legislative processes of federal government.

A disturbing factor during the past several years has been that President Truman and the Republican-controlled Senate and House have not acted in harmony and this was one of the President's chief points of attack as he made his vigorous and effective campaign for election to the office to which he advanced from the vice presidency following the death of Franklin D. Roosevelt.

Opportunity will now be given Mr. Truman, as duly elected President and with an assumedly like-thinking Congress, to surmount obstacles to various of the measures which he proposed but which failed of congressional approval.

Now, for instance, can come the promised solution of the problems of inadequate housing; the expansion of social security; revision or repeal of the Taft-Hartley law—if deemed advisable by the President and Congress; restoration of extremely high prices to levels which do not work hardships on millions of people; exercise of federal compulsion on southern states to assure civil rights to all citizens, and—above all—working out the complications of international relations in such a way as to achieve the goal of permanent peace.

It is a huge program that will present itself to President Truman and Congress as the incoming administration gets into action shortly after the first of the year, and it will be hoped that Tuesday's victory may be rightly regarded as an expression of majority confidence in the ability of the men chosen to perform such gigantic tasks rather than that less commendable considerations entered into the unforeseen show of strength by the President and those of his party who were elected to House and Senate.

## Fraction Defeats Sewer Bond Issue

APPARENT defeat of the $500,000 sewer bond issue proposal at Tuesday's election, by a fraction under the 65 per cent requirement, must be regarded as regrettable by those who realize the importance of improving Mansfield's sewer system in order to keep pace with the greater needs of a growing community.

With such a close vote on this issue—10,043 for and 5,459 against—a change of 17 votes would have marked the difference between passage and defeat. It is noteworthy that majority support extended into all precincts and that failure resulted from the legal requirement of 65 per cent of the votes cast.

The closeness leaves a hope that the official count might reveal errors that would change totals, but in the absence of such an outcome it will be necessary to find some other way to finance improvement of this vitally important service.

## Council Directed To Grant Pay Raises

AS HAD been confidently anticipated in advance of Tuesday's election, Mansfield voters gave a favorable majority to the initiated ordinance designed to increase the pay of members of the city's police and fire departments.

The obligation now rests upon city council to pass an ordinance in accord with the voters' directive and responsibility is also placed upon council to find a source of supply of the additional money that will be required to pay the increases in these two departments, as well as any other salary and wage adjustments that may be deemed advisable for other city employes.

Recognizing full justification for pay increases commensurate with rise in living costs during this period of inflation, it cannot be disregarded that availability of public funds for this purpose must also be assured.

## When Deadly Fumes Pollute Air

THE DEADLY smog which caused a score of deaths in Donora, Pa., was a local condition, the rarity of which is attested by the wide attention attracted by the series of deaths. But it is possible that such occurrences may become less rare as a result of the present general trend of industrial development.

Smog is a term lately added to the American language, denoting a mixture of smoke and fog. The feeling of depression which accompanies it is not altogether mental, for smog reduces the supply of oxygen available for the lungs. The smoke which combines with fog to make smog may sometimes contain harmful fumes, which add to the bad effects. Apparently Donora experienced a rare combination of thick smog containing an unusually large amount of toxic fumes.

Doctors recalled that in 1930 a mysterious fog, later found to have contained sulphuric acid fumes, caused 70 deaths in the Meuse Valley in Belgium.

Such a combination of circumstances might not occur again for many years. But the possibilities of it are being increased. Industrial plants, formerly concentrated in a few areas, are being scattered over the country. Chemical processes in industry are growing. In any place where potentially dangerous fumes are released into the air, alone or in combination with smoke, a prolonged, dense fog could have deadly results.

As Claude Callan views it: "Some races of people are so far behind the times that they still kill people by hand, but we more civilized and advanced races use machinery and get more killing done."

As a means of overcoming mike fright, one radio entertainer proceeds on the theory that no one is listening—on which Harry Wade comments: "That, indeed, may be the case."

The Kansas City Star objects to the "unearthly ideas" presented in the Dick Tracy script, "such as a police chief resigning because he made a mistake."

Pathfinder magazine suggests: "When a man gets the big head he is suffering from a bad case of mistaken nonentity."

## How Much Aid Should U. S. Give China?

IN DISCUSSING the Chinese communists' great military victory in Manchuria, I said that this also was a triumph for Russia and that it vastly strengthened the hand of Moscow in its world revolution for the spread of the ism.

In this connection I branded as buncombe the claim that the Chinese Reds are just humble agrarians without any Soviet affiliation.

**We return to the subject again because of its great importance to the nations which are battling communism, and because we have had a fresh development which gives undisputable proof of the falsity of the agrarian tale.**

Mao Tze-Tung, chairman of the Chinese Communist party, has written a report of the Red successes in China for the bulletin of the Cominform (communist international information bureau) which has headquarters in Bucharest, Romania.

The Cominform is generally accepted by observers to be the successor to the Comintern, or general staff for world revolution, which was "abolished" by Moscow in 1943 because of hostility of the western powers to it.

So Mao Tze-Tung reports to the Cominform, which is the voice of Moscow. He says in his account (which presumably was written before the fall of Mukden, capital of Manchuria) that his forces occupy 907,000 square miles of territory, or about 24.5 per cent of China. He also claims that 168,000,000 people, or some 35 per cent of China's population, are under communist rule.

Whether his figures are accurate, the fact remains that the Chinese communists threaten to overrun all China, thus presenting Russia with a base which might well dominate the entire Orient. The nationalist China of Generalissimo Chiang Kai-Shek is pretty well shot to pieces — politically, economically and militarily, and it looks to America to rescue it.

* * *

**Purpose of Helping China.**

THESE circumstances give rise to some cogent questions: How far should the United States go in trying to rescue China? Assuming that our present help is so inadequate as to be more or less money down a drain pipe, should we go all out in aid at huge expense?

One would think these points would have to come up for review and decision by Uncle Sam in the near future. However, this doesn't close the list of questions, because the query frequently is raised as to why we should support a Chinese totalitarian regime in a fight against Russian totalitarianism?

**As regards the last question I believe we must look at aid to China partly as a matter of expedience rather than as a political ideal. Opponents of Russian communism hold that it is the greatest menace mankind ever has faced. Thus we help China, not because we approve of her political set up but because we like bolshevism the less.**

As previously remarked, presumably the cost of our intervention in China will come up for official review in due course. As I see it that won't necessarily involve adopting one of two extreme courses — pulling out of China altogether or going all-out with mountainous aid.

Without trying to make predictions, one can foresee the possibility of a middle course of relatively moderate aid being continued until the situation irons out itself further. There has been no indication that we should consider abandoning Chiang to the Reds.

What seems equally clear, however, is that the United States can't save China for the nationalists as we have maintained the present government in Greece. The Greek task is infinitesimal as compared with that involving mighty China.

## Looking Back

**Twenty Years Ago Today**

**Sunday, Nov. 4, 1928.**

Michael Kozan, 47, died from wound received when revolver he was cleaning was accidentally discharged

Joseph Adamescu and family returned from three months visit in Europe.

William Hartman, 81, former member of police department, died.

Mr. and Mrs. Allen H. Burger and Mrs Goldie Matuch were injured in auto collision at street intersection.

Daughter was born to Mr. and Mrs. Fred Wagenhals, 135 West Sixth street.

Joseph Pewonski, 64, died at his home, 27 Jefferson street

Youth was catured after burglarizing Smokehouse pool room and bowling alley.

* * *

**35 YEARS AGO TODAY**

Fred S. Marquis was elected mayor of Mansfield . . . Richmond Smith bought Tracy property, 127 Park avenue west, and planned to erect modern apartment building.

**TODAY IN HISTORY**

On November 4, 1852, Napoleon, president of the French Republic, announced to his senate a contemplated restoration of the empire.

## Dave Boone Says:

IT IS announced that about 72 per cent of all the young men examined for the draft in this country so far have been found physically unfit. In New York state the figure runs to 87½ per cent. Either something has hapqpened to the kids or the doctors are getting too technical.

* * *

**It will come as a shock to most people to hear that in a country where "vigor, vim and perfect trim" have been supposed to be routine, our youngsters are so full of flaws.**

* * *

Can it be that there ain't the health-giving properties in tobacco, beer and "package" goods that we supposed?

*Frankly Speaking*

## How Did It Happen?

**Editor's Note: What happened to Thomas E. Dewey's vaunted advantage over Harry S. Truman in the presidential election? The political historians, in due course, will give their studied answer to that question. The following article contains some notes which the historians might find useful. The author is a Washington political reporter.**

* * *

By JOSEPH L. MYLER
United Press Staff Correspondent

WHEN the underdog in the betting looks swell and the odds-on-favorite doesn't come up to expectations some questions suggest themselves. Such as "why?"

Why did so many millions vote for President Truman who were supposed, according to the pollsters and the dopesters, to vote for Governor Dewey?

**Maybe it was a matter of personality. Maybe the experts overlooked the pulling power of the President's warm, friendly—and sometimes homespun—approach to the voting public.**

Maybe it was because a lot of Americans naturally take the side of the underdog. They saw the odds against the President—odds increased by the bids Henry A. Wallace and J. Strom Thurmond were making for votes Mr. Truman could otherwise have counted on.

Maybe it was because the ordinarily mild-tempered Mr. Truman got sore at the way he was being ganged up on and turned almost overnight into a fighter and slugged every step of the way.

Maybe it was because they interpreted the more dignified campaign Dewey made as a sort of too-proud-to-fight approach to what always has been a fighting business in this country.

* * *

**"Maybe" This and That.**

WHEN Mr. Truman talked off the cuff to people about prices and taxes and housing and wages and then said the Republicans didn't care about "you and me," maybe his listeners felt they were hearing things they could understand.

When Gov. Dewey read polished texts about "unity and keeping America strong" and "peace with justice," maybe a lot of Americans had difficulty fitting those abstractions into their own scheme of things.

And maybe they remembered when Sen. Harry S. Truman of Missouri became President on that April day when FDR died. Perhaps they recalled that the overwhelmed little guy—who had never really wanted to be anything but Senator—asked his countrymen to pray for him.

They remembered, perhaps, how he had humbly taken on the biggest job in the world. And they saw as the months and years passed how he came to like what he was doing and to believe he had something good to give the people. Maybe they believed it, too.

**There may be a lot of other answers. Maybe the polls made the Republicans smug, so that they didn't work hard enough to get out the vote.**

Maybe organized labor had a lot to do with making the President look good. The unions were against the Taft-Hartley Act and so was he. Hadn't he vetoed it, though futilely, and hadn't Dewey said he was for keeping it on the books?

And the way the President tore into the 80th Congress—maybe that won him a lot of friends. Americans by and large get a kick out of berating Congress.

## Timely Editorial

**When Money Talks.**

After promising his mother in the hearing of millions of radio listeners that the Walcott bout was his last fight, Joe Louis has reconsidered and will make another defense of his title next June in Yankee Stadium.

The multitude who took Joe at his word, believing he was different and apart from the run of pugs, will be moved to moral outrage over this belated revelation of weakness in his armor. We guess we would, too, if we were absolutely sure that in the same circumstances, and being in the champ's shoes, we could turn an entirely deaf ear to the rustle of lettuce coming to somewhere between a quarter and a half million dollars, for an hour's work. — Detroit News.

## More Activities By 'Kickback' Thomas

By DREW PEARSON

WASHINGTON — Public indignation over Congressman J. Parnell Thomas' practice of getting salary "kickbacks" from low paid clerks and stenographers has diverted attention from another little Parnellian practice—namely keeping men away from army combat and then collecting from their families.

During the war, when Thomas also was a member of the important military affairs committee, he got two soldiers—George Tiplitz of 162 Fifth avenue, New York City, and Edward Allen Kimmel of Long Beach, N. Y.—transferred away from combat.

Later they and their families contributed $850 to Thomas's re-election campaign though they did not live in the Congressman's New Jersey district.

**However, humble apologies are offered to Congressman Thomas for underrating his ability in this direction. The two men mentioned were not his only achievement in war-service-dodging.**

On Nov. 16, 1944, Thomas wrote a letter to John Flagg, of the Watson Flagg Engineering Co., 24 Morton street, Paterson, N. J., which read in part:

"Dear John:

"As you probably know, the Dies committee is winding up its affairs this year. We have had with us for the past six and one-half years a man by the name of Robert Stripling, whose title has been chief clerk and chief investigator. Stripling . . . now finds himself in a position where he either has to get a position with a company doing defense work or be drafted.

"He is 32 years of age, he has a wife and one child, and is making his residence in Washington. But would be willing to move anywhere in the east . . . If you think that he would fit into your setup, I am quite sure that he would be pleased to talk the matter over with you. Let me know if there is any interest."

* * *

**Four Times Deferred.**

THE FACT was that Stripling, chief investigator for a committee supposed to set an example to the world of good Americanism, was four times deferred. At that date, just before the Battle of the Bulge, men considerably older and with more children were being inducted.

So, when Stripling's draft board refused to defer him any longer, Congressman Thomas tried to get him a "war" job.

**The dodge, however, did not work. Stripling was finally taken into the army. But not for long. That great example of Americanism, J. Parnell Thomas, once again came to his rescue.**

Stripling was with a military government unit at San Antonio, supposed to leave for Japan to help General MacArthur police the country just after V-J day. The unit had been especially trained for this duty.

But although Stripling had been in the army only nine months, whereas some of the men he was supposed to relieve in Japan had been in four years, Congressman Thomas took up the matter of his discharge with Maj. Gen. Wilton B. Persons, chief lobbyist for the army on Capitol Hill.

And on Oct. 15, 1945, General Persons replied that he was keeping "Private Stripling in this country" in order to have his discharge arranged. The general wrote Thomas as follows:

"In reply to your recent inquiry with respect to the manner in which Private Robert E. Stripling should proceed to apply for his discharge based on his importance to national health, safety or interest, the following information is submitted."

Then, after advising Thomas how Stripling should apply to his commander with supporting statements from the Congressman emphasizing the "national importance of the work," General Persons concluded:

"In accordance with our conversation, the war department has arranged to hold Private Stripling in this country for a sufficient time to permit his discharge application to be filed and acted upon.

Accordingly, Private Stripling's unit sailed for Japan. He was discharged and came back to Washington.

## 'Unified' Services Clash

By KENNETH L. DIXON

WASHINGTON—Now that the campaign talk of national unity has ended, the country's leaders soon may find themselves face to face with an urgent problem involving unity of America's armed services.

It's the problem of what to do about the situation which has Pentagon wags wisecracking that the nation's armed force unification has resulted in "triplification" instead.

Such waggishness is not wholly unwarranted, as any Washingtonian who has a speaking acquaintance with men in uniform knows.

**Despite the unification legislation, ancient jealousies still rage—and in the top and middle ranks, as well as on the enlisted level.**

Old-line admirals, who finally have decided that the airplane is here to stay as a military factor, still consider the nation's separate air arm an upstart organization. They'll design, test, build, service, supply, fly and boss their own, thank you, Mister! And they want no bloody land-lubbers sending orders to their bridge, telling them when to launch their man-driven missles!

Equally stiff-necked at certain levels, despite their generally-younger age and scant two-war traditions, the flyboys are flowing with ocean-spanning and world-girdling adrenalin.

In such a stimulated mood, their generals are not above suggesting that, after all, the Navy obviously now is a rather ancient service arm and should be relegated to a supply-running role in future plans.

Then, while apoplexy is having itself a field day, the Army—somewhat embittered by its eternally undramatic role—steps in and snaps out its mouthful.

Although less belligerent (in this matter) than either of the other two, and willing to concede its need of both, the top infantry brass will listen only so long. Then its temper flares, too.

* * *

**Forrestal Tells 'Em.**

ALL of this was quietly underscored on election eve, when defense Secretary James Forrestal issued an order creating an annual national defense legislative program. It sounded innocuous and nice, and Forrestal's legislatice director, Maj. Gen. Wilton B. Persons, gave reporters to believe that it was just another natural step forward in the all-over unification program.

On paper, that's what it looks like. Actually, it amounts to a sharp hand-slapping to certain officers in all three branches of the service who have been slipping out to see their pet congressmen on the sly—and sometimes it hasn't been on the sly.

During the last session, for instances, despite unification, spokesmen for all three defense arms got embroiled in open squabbles before congressional committees.

Shortly after that, Forrestal called them on the carpet, singly and in groups and read the riot act. No more of that stuff. They were cutting one another's throats, and if they didn't quit it, all three branches were liable to bleed to death financially.

**Apparently he thought, at the time, that the scolding took, particularly since a legislative liaison director was appointed, and each branch was given a side door into his office, so to speak.**

But in the weeks and months that followed, almost any sideline observer (including most Capitol Hill newsmen) could have told the secretary that his unofficial dressing-down had done nearly nothing—except make the separate service spokesmen were surreptitious in trying to sway their favorite solons!

It would seem that Forrestal finally tumbled, or at least finally decided to take action, for his election eve announcement actually amounted to an official order for the boys to get into line and quit their competitive bickering.

From now on, it said in effect, they'd settle every squabble before ever setting foot on Capitol Hill—and even then, only the designated defense liaison men would carry the ball to Congress. All others would be confined to quarters, so to speak.

## November Thoughts

By CALVIN A. BYERS

NOVEMBER. Rattle of dry fodder. Sweet and moistly odorous about the stems, the corn leaves rustle with brashness that is noisy with memories of corn huskings, barn raisings, apple parings of bygone days. Old ladies past 80, old men with knotty knuckles and white beards remember with serene delight these pleasures of young days.

November. The last wagonload of yellow corn is shoveled off into the extra crib. Listen to the ring of the metal shovel as the corn leaves it for the opening in the crib. And when the load is off, crawl into the heaping crib, and just for the joy of it sniff deep of the fruitful flavor of the freshly husked corn.

November. A frosty morning just after the sun comes up. A flaming bush afire upon the rise, newly-opened bittersweet berries along the hedge, rabbits' aimless tread recorded on the frosted leaves, the far-off long-drawn bay of a hunting dog. The early smell of coldness in the lungs — quiet, peaceful, homey grandeur all over the valley.

**November colors are russet and black and gold; November skies are changeful. November flowers are vigorous chrysanthemums that wait to bloom until other flowers are gone.**

Harvest-crowned, the month of pumpkin pie, turkey and Thanksgiving — the month of early butchering and applebutter making. The month when wintry snowsqualls, like as not, blanket the sleepy earth with new fleecy blankets of all-over white.

Some November morning we awake to find a clean quiet change taking place. Big snowflakes, moist and clinging, cloak the tired landscape — naked tree limbs etch themselves against a gray, lowering sky, wheels are hushed as they pass along streets and graveled roads.

End of autumn, beginning of winter, November bids us round up the goodness of the year, ample measure, pressed down and running over, and give our thanks to the Giver of all good things.

## Care of Spastic Children

By HERMAN N. BUNDESEN, M.D.

NOWADAYS more and more attention is being given by the medical profession to the problems of spastic children, those unfortunate youngsters, who, because of birth injuries or faulty development of the brain, come into the world seriously handicapped.

Some of these little patients have what is known as spastic palsy; and certain muscles are in a state of almost constant movement. Others have a rigid paralysis of certain muscles. These children often develop deformities because the constant pull of tense contracted muscles is so great that it cannot be counteracted by normal muscle groups. Furthermore, the tendons which attach these abnormal muscles to the bone do not grow as rapidly as the bones.

**Careful Study.**

If these children are to be helped, a careful study must be made to determine the muscles which are spastic; weak and relaxed, or normal.

Braces are often helpful. It must be kept in mind, however, that such braces are used chiefly to control the muscles that are overlystrong and not to support the weak muscles. Thus, braces must be especially constructed and fitted with extreme care.

**Difficulty In Eating.**

Many children with spastic paralysis have difficulty in eating and so suffer from vitamin and other deficiencies. Their diet must be well balanced so as to include all of the necessary food parts. Since some of these children expend more energy than normal children, their food intake must be greater.

It is suggested that they be given Vitamin B-complex, since this compound not only stimulates the appetite but also relieves consipation. Vitamin B6, or pyrodoxine given with Vitamin E, has been used for flabbiness and muscle weakness. Attention to these matters may be of great help to the child with spastic paralysis.

However, one of the most important factors in the management of spastic children is to give them the opportunity to play with other children.

Frequently, the best way to accomplish this is to have them play with each other in summer camps and in certain hospitals and clinics that are engaged in this particular phase of child care.

## As Cerf Tells It

Two old Shakespearean troupers were boasting of their triumphs: "When I played the death scene in 'Hamlet,'" said one, "the entire audience burst into tears. One lady had hysterics."

"What's that?" scoffed the other. "The night I did that scene at Daly's theater on Broadway, my insurance agent, who was sitting in the third row, rushed to my house and paid my wife my life insurance."

**ODD FACT**

In the United States there are three widows to one widower.

A plant sale was held by the members at the close of the meeting.

## *Journey Club Visits Museum*

The literary portion of the program was offered by Miss Mary Proctor, who read a paper on "The Trend In Painting." "Impressionism" was the theme of the musical portion.

Mrs. W. E. Renwick played two selections from Debussy. "The Flaxen Hair" and "Reflections In the Water." "Martha's Song," from the opera "Khovinstchina," by Moussorgsky, and "Romance," by Debussy, were sung by Mrs. Ambrose Middleton.

Other officers installed at the second luncheon-meeting of this newly formed organization were: first vice president, Mrs. Gordon; second vice president, Mrs. Sam Fox; secretary, Mrs. Jack Levinson, and treasurer, Mrs. William Kann.

Eighty-three members and one guest, Mrs. Jack Jacobson, of Cleveland, mother of the hostesses, Mrs. Gordon and Mrs. Charles Kates, attended the luncheon.

**Mrs. Sanford A. Timen, first vice president of the Columbus chapter, was guest speaker of the afternoon. She installed officers, presented members with their charter and gave an indoctrination speech entitled "Progress With Projects."**

Mrs. Timen divided the work performed by Hadassah into two categories—that carried on in America, and that in Israel. She emphasized the fact that Hadassah's work in Israel fosters the democratic ideal. "We are not doing for people," she said, "but showing people how to do for themselves."

**The program planned for the organization this year deals with political education in American affairs along with an understanding of the purposes and principles of Hadassah.**

The buffet luncheon was served from an attractively decorated table carrying out the blue and white color scheme of the Hadassah organization.

A floral arrangement of blue carnations and white baby pompons formed the table centerpiece, flanked by two three-branch candelabra. The next meeting will be a 1 o'clock luncheon, Dec. 1, at the home of Mrs. Phil Oxman, Glenwood boulevard.

## 'Our Plundered Planet' Topic Of Beta Chapter Program

"OUR PLUNDERED PLANET" was the interesting topic presented by Mrs. Russell Higgins last evening at the meeting of Beta chapter, Mansfield Sorosis. Members convened at the Women's Club with Mrs. Eugene Linham as hostess. Eighteen were in attendance.

"Everyone should try to conserve our land, forests and water supply," said Mrs. Higgins," as the artificial substitutes, technologists create, cannot be expected to offset the terrific attack upon the natural life-given elements of the earth."

"One of the principal causes of the aggressive attitudes of individual nations, and much of the present discord among groups of nations, is traceable to diminishing production of lands and to increasing population pressure," said the speaker in closing her talk.

Mrs. Stuart Baird presided for the business session.

On Nov. 17 there will be a guest night program at 8 p. m. at the home of Mrs. Louis Piller, Westview boulevard. Mrs. Floyd Davis will be the associate hostess. Rev. Matthew Madden of the First Congregational church will speak to the group on "Public Speaking."

By LARRY MURPHY
(News-Journal Correspondent)

COLUMBUS—With a surprisingly large turnout at the Mansfield club's initial fall session last week, Mansfielders on campus proceeded with plans for entering intramural sports.

Club President Bob Mercer, in an effort to get activities started as quickly as possible, promptly appointed Maurice Callahan one of two co-chairman for a sports committee, and named Jim Sheads to head a mailing committee.

Audrey Kalish, secretary for the organization, reported that a second chairman for women's sports may be named next week.

Tentative plans for the sports committees call for formation of mixed bowling teams and men's and women's basketball teams.

Meeting the second and fourth Wednesday evenings in the Ohio Union at seven, the group also plans to have some sort of entertainment at each session. Possibilities, under consideration, include movies, football, occasional skits and musical entertainment as well as an outstanding speaker once in a while.

As an incentive to greater attendance two prizes have been offered for the next meeting, Nov. 10.

# HOROSCOPE

**For Friday, November 5.**

A MOST powerful planetary setup may prove dramatic, spectacular, and breath-taking, with several adverse and conflicting aspects offset by quite as vivid and vital "benefits" arising from potent astral forces. An upheaval, an entirely unforeseen circumstance may be explosive and uprooting, while concurrently a tactful, shrewd and controlled surge of feeling and emotions, with a calm evaluation of the thrilling situation, may be wisely, astutely handled. Perhaps an uncanny stroke, with subtlety and craft, may divert the danger into constructive and happily pleasant and progressive channels. This menace and final successful climax operate in business, romance—a surprising adventure in heart, home or spiritual aspirations.

**For the Birthday.**

Those whose birthday it is, may prepare for a year of dramatic and stirring events, of sudden and unpredictable nature, affecting the life in a radical and far-reaching manner. Business, financial, domestic and romantic ties are involved, with danger of loss and most prudently and shrewdly manipulated, free from emotional or erratic drives or incentives. Luckily the mentality is set in wise and stable grooves, the emotions also partaking of a profound and subtle slant, veering toward the strategic or idealistic. In this, "hunches," intuitions, as well as reason and reserve may prove vital factors.

A child born on this day may possess a canny mixture of the mental and the emotional, with keen inner urges, but also shrewd mental or character promptings of real worth. The combination promises adventure and perhaps renown.

# Here Is A Group Of Tasty Dishes

HERE is a group of recipes, unrelated except for that most important attribute, flavor. No matter how simple the dish, how inexpensive its ingredients, it will prove to be mighty good eating if it is well flavored.

French war brides have delighted their American in-laws with a stew that is a household dish in France, a meat stew glorified by the piquant accent of stuffed olives. Serve it with a crisp green salad with an oil and vinegar dressing, and a dessert of fresh fruit.

To serve 5, have one-lb. chuck or round beef cut in one-inch cubes. (You see this isn't an expensive recipe.) Brown the meat in 2 tbsp. shortening. Add one c. chopped onions, cook until golden brown. Add one c. each chopped green pepper and chopped celery; cook until tender. Mix in 11-oz. can of condensed cream of tomato soup, diluted with an equal quantity of water, ½ c. stuffed olives, tsp. salt and ½ tsp. pepper. Simmer in covered pan for an hour, stirring occasionally. Serve in deep plates over boiled new potatoes.

"I'd heard that they were and they weren't. I found out last night, when I was arrested, that they were."

Kenneth D. Jenkins, Cardington, was fined $5 and costs for crossing the yellow line. Five dollar fines also were assessed against Emmit Gee, Mansfield, R. D. 1, for operating an unsafe motor vehicle and Isobel C. Jackson, Mansfield, R. D. 2, for failing to have an operator's license.

Two patrol cruisers had spotted the car in which were two men sought for a filling station holdup. During the chase, Biggs jumped on the running board but the driver swerved his vehicle into an oncoming tractor-trailer and the policeman was thrown off. He died shortly afterward.

## Spanked Boy, 7, Takes to Rails

BUFFALO, N. Y. (U.P)— The conductor on the Buffalo-to Detroit train asked the little boy for his ticket. He had none.

He said he didn't have any money either. But he added he was Ronnie Selling of Buffalo running away from home.

Railway men decided to take Ronnie on to Detroit and then notify his parents.

Fortified by a night's sleep, the young wanderer returned to Buffalo the next morning where he was met by his father. Then Ronnie told why he had run away.

He was mad, he said, because he had received a spanking for a previous runaway attempt.

# Truman Win Startles U. N.

## No Change Seen In U. S. Policy

PARIS—(U.P.)—Word that President Truman had won the election found the United Nations already prepared to carry on along the lines of the joint Republican-Democratic foreign policy.

UN delegates, startled by the reversal of the presidential forcasts, received the assurance of Warren Austin, American permanent delegate to the UN, that the election "will not affect in any way the conduct of our work" here.

**Secretary of State George C. Marshall, asked whether he planned to resign, called attention to what he labeled his long standing desire to retire from government service.**

Austin's statement said:

"The American delegation, which is a bipartisan delegation composed of both Republicans and Democrats, is prepared to go forward with the work of this assembly as it has been doing so far on a bipartisan basis."

# Unions Feel Vote Blasts Labor Act

## Result Seen 'Mandate' To Repeal Law

### Taft-Hartley Rule Draws Censure

WASHINGTON—(INS)—CIO and AFL leaders today interpreted the Democratic election triumph as a "mandate" for immediate repeal of the Taft-Hartley law.

CIO President Philip Murray wired his congratulations to President Truman and said:

"This tremendous election victory for the New Deal principles which you made the cornerstone of your platform must be quickly translated into action.

**"Clearly the people want repeal of the hateful Taft-Hartley act."**

AFL President William Green expressed hope the Democratic-controlled 81st Congress will remove the Taft-Hartley act from the statute books "without delay and without quibbling."

The leaders of 15 million organized workers claimed a major share of credit for the Democratic election sweep. They said it meant labor is in politics to stay.

**AFL Secretary-Treasurer George Meany said the elections represented a "terrific success' for union political action. He said 15 out of 16 Senate candidates and 86 out of 105 House candidates supported by the AFL scored victories.**

Meany declared, however, the AFL's Labor League for Political Education" is not going into politics to be the tail of anybody's party." He said the AFL would continue an independent course of rewarding its friends and defeating labor's enemies.

Meany told a news conference: "Labor is making no pretense of trying to run the country. We don't pretend to have a smooth-running, nation-wide political machine. But we made a start toward a permanent political arm for the protection of American labor."

**Meany called election resunlts a complete repudiation of the 80th Congress, not only for passing the Taft-Hartley act but also its failure to consider action on minimum wages, adequate housing and to control prices."**

Theh AFL secretary-treasurer demanded repeal of the Taft-Hartley statute and a return to the Wagner act "with perhaps some amendments that could be agreed on by management and labor."

Meany said the idea of new labor third party "is not dead but the AFL is not ready for it at this time."

## South Hails Truman Triumph But Will Fight Civil Rights

ATLANTA — (INS) — Southern politicians hailed President Truman's victory today as a triumph for the farmers but remained determined in their efforts to continue their fight against the chief executive's civil rights proposals.

States' Rights leader J. Strom Thurmond, governor of South Carolina, declined to make any comment on the election. So did his vice-presidential running-mate, Gov. Fielding L. Wright, of Mississippi.

**But sentiment, generally, of the South's supporters of the States' Rights faction was that the battle against the civil rights proposals will continue.**

Sen. Burnet R. Maybank (D) S. C., said President Truman's victory was won by the farmers of the nation, but added his opposition to the civil rights program. He declared:

"The civil rights proposals will now be fought where they should be fought, which is in the Senate, and not in hotel rooms and political conventions."

Sen. Lister D. Hill (D) Ala., pointed to the victory of Mr. Truman as an indication that the people want to perpetuate what he called the "great New Deal program."

# WOMEN ARE WILD ABOUT FAB FOR FAMILY WASH...HERE'S WHY!

**FABULOUS SUDS,** even in hardest water. Two washing machines were filled with hardest water. One cup of FAB made a washer brimful of suds. One cup of soap made almost no suds!

**FAB WITH SUPER-WETTING ACTION**

washes everything

**FASTER, CLEANER, WHITER, BRIGHTER**

than any soap...in hardest water!

**Even dirtiest overalls and grimiest play clothes get cleaner faster with this fabulous new washday discovery from the Colgate-Palmolive-Peet laboratories!**

**NEW INGREDIENT GETS WHITE WASH WHITER ...COLORS BRIGHTER!**

FAB contains a *fab*ulous new ingredient that gets white wash whiter, colors brighter. Besides, there is no soap scum to "gray" white wash or to dull colors when you wash with FAB.

**FAB WASHES CLOTHES CLEANER THAN ANY SOAP!**

FAB with *Super-Wetting Action* instantly penetrates materials: pushes out dirt. Washes grimiest overalls cleaner faster than soap! No "graying" soap scum. Wash is whiter, cleaner!

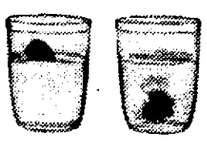
**FAB WASHES CHEAPER ...IN HARDEST WATER!**

Laboratory tests prove that cup for cup, in hard water, FAB washes up to twice as much family wash as soap. You'll notice that all of FAB washes... Nothing is wasted in soap scum!

**FAB WASHES DISHES TWICE AS FAST!**

No need to wipe dishes. Just wash with FAB, and rinse. NO soap scum to polish away. Even glassware sparkles! FAB slashes through grease as no soap can do! Leaves no dishpan ring!

**What is Super-Wetting Action?**



See for yourself. Roll cotton sewing thread into a ball. Drop it into a glass of water. It floats.

Drop another ball of thread into a glass of water and FAB. It sinks and becomes soaked at once. This shows how FAB with *Super-Wetting Action* penetrates materials faster and more thoroughly.

**Super-Wetting Action is a new scientific washing principle.** When you wash with FAB, FAB and water penetrate materials faster and more thoroughly than soap... *push* dirt *out!* This *Super-Wetting Action* is a new scientific washing principle that saves time and work as no soap can do in hard water.

**New Ingredient... another *fab*ulous miracle!** White wash gets whiter and colors brighter due to a *fab*ulous new ingredient in FAB.

**No Soap Scum... even in hardest water!** Even grimiest overalls, play clothes, and towels...everything that's extra-dirty... get cleaner faster with FAB. There's no "graying" soap scum, even in hardest water. Clothes get whiter, cleaner!

# Dem Victory 'Nightmare' To Gallup

## Admits Pollsters Took 'A Licking'

NEW YORK—(UP)—Dr George H. Gallup, one of the poll takers who forecast the election of Gov Thomas E. Dewey, said yesterday it was "the kind of a close election that happens once in a generation and is a nightmare to poll-takers."

Gallup, director of the American Institute of Public Opinion issued the following statement from his office.

Everyone is asking 'what happened'. Why did all the polls underestimate Truman's strength?' The answer to this question will likely be found in an analysis of voting statistics when they are all available.

Here are the pertinent questions to which we are seeking the answer.

1. Which voters stayed home? Only 47,000 000 voters went to the polls Tuesday Another 47 000 000 (M) voters stayed home Was it the republicans or the independent voters who failed to show up at the polls?

LATE THINKERS

2. What about the undecided vote? As late as the final week of the campaign some 3 000,000 voters had not yet made up their minds Since many of these voters who were undecided had voted the Democratic ticket in earlier elections, many of them must have decided to cast their votes for Truman during the last few days of the campaign

"3. Did the Wallace strength early in the campaign return to Truman? Unquestionably the sharp decline in the Wallace vote was a great help in many pivotal states Wallace insured the Dewey victory in New York On the other hand the absence of the Wallace ticket on the Ballot in Illinois undoubtedly made the difference there between victory and defeat

"4. How much help did the national ticket get from local and state candidates? Early returns show many local candidates leading the vote in a number of close states

"All polls must analyze these problems and work towards their solution to make certain that the same errors do not occur in future election surveys."

# Stock Drop Forecast By Economist

## Predicts Industry Will Shelve Plans

WELLESLEY, Mass.(U.P.)—Economist Roger W. Babson predicted yesterday that stock market industrial averages "will drop 10 points within a week" as result of President Truman's election.

**"This will occur," the 73-year-old statistician said, "because industrialists will shelve expansion plans they made in anticipation of a Republican victory."**

Babson said the stock market would continue to decline "for some little time" but predicted it would rally by the time the Dow-Jones average drops to 165.

He said, however, he still held to the forecast he made to the United Press last week when he predicted there will be neither war nor depression this year or next.

# *Marcantonio Wins Again*

NEW YORK —(INS)— Rep. Vito Marcantonio won re-election to the House of Representatives in New York City.

John Ellis, young lawyer running on both the Republican and Liberal tickets, was second with 31,482 votes, 4,455 behind Marcantonio.

Democratic candidate John P. Morrisey was third with 31,184 votes.

If your rupture is larger this year than last, then you must be wearing the wrong kind of truss. Perhaps one with a knob that causes the opening to enlarge. Don't delay until your rupture becomes irreducible. Try the famous DOBBS TRUSS that has given relief to thousands after scores of other trusses have failed. The DOBBS pad is soft and fits over the rupture like the palm of your hand, thereby giving the tissues and muscles a chance to come back to normal. It has no belts or straps to hinder circulation.

## Westbrook Pegler

### *Claims Guru Cult Made Profit By Importing Art Objects Duty-Free*

NEW YORK—The show is over, but the clown stays in character until we pull off his pantaloons and maul the low-comedy nose off his face to reveal the sinister sneak under the make-up. Fun is fun, but it is an unreasonable strain on the patriot's sense of humor to hand him a vice president with a concealed capacity for infatuation and clandestine nonsense such as Bubblehead Wallace had shown to Roosevelt, Hopkins, Ed Flynn and the others who put the fortunes of their crooked political party above the very life of the country.

On the night of Oct. 27, a little piece trickled into the international news in New York which said that once again the question had been put to Bubblehead whether he did or didn't write the goofy Guru letters to Nicholas Roerich and other inmates of the fun-factory on Riverside drive. This time, Gallahad Wallace, so-called because in his childhood an aunt of his was a bum judge of character, deviated from the old answer that he never discussed any matters with Westbrook Pegler, a man of great charm, if anyone should ask you, or any stooge thereof.

**Instead Mortimer Snerd whipped a long strand of slaver off his chin with his sleeve and answered: "Nope, nope, nope, public thinkers pay no attention to such poppycock." By poppycock he meant the goofy letters calling Roerich master, running on insanely about the need of purifying fires to redeem mankind and speculating on the kind of government that would rule the United States when the Mahatma got in.**

"Even if I said I didn't write the letters, Westbrook Pegler wouldn't believe me," Bubblehead continued, the first time he has been right since he entered public life.

Then, lapsing off into his normal state, he added: "What's the use of commenting on such picayune matters?"

Bubblehead probably does think it a picayune matter that a man who once stood within a heartbeat of the presidency in wartime didn't dare answer the challenge to his very sanity that has been flung at him a thousand times in his grotesque tours as the Kremlin's candidate.

I keep gathering information about Doctor Jumble and his complicity in the affairs of Nick Roerich and I have not failed to notice that Roosevelt, too, was mixed up in it. I cited just the other day the letter that Roosevelt wrote to Louis L. Horch, the grand exalted nougat of the nuthouse on the drive, hoping that Louie would be able to drag his lamasery out of debt and complications. Now I find that the cult was doing a big business importing art, free of duty, and selling it at prices higher than an Englishman's pants. They rang up $113,665 in a sale of two days at the Anderson galleries in New York in March, 1930, and those figures may help you understand the passionate appetite for culture that Louie got about that time.

**We get more and more puzzled about the strange bashfulness that Horch has developed since I began to ask him questions. The cat seems to have his tongue. That is a dramatic change, when we remember that he once courted publicity and kept his press agents busy.**

My own studies of religion have been limited to the catechism and some of Homer Rodeheaver's hymns suitable for quartette with beer, so I am in no position to enlighten my flock on the subjects here mentioned. I do, however, venture a fearless rejection of Babism as a hellish doctrine. My counsel in such matters tells me that Babism is a Persian delusion launched early in the century by a swami named Abdul Baha, known also as the Bab. This theologic error also is known as Bahai and seems to encroach on Cubish Hinduism, although there probably is material for a holy war in that unguarded assertion alone.

So we may conjure what horrors went on in the shrine of Bubblehead's esoteric speculations at the lamasarium on Riverside drive.

## Car Purchase Fund Set Up

County commissioners have ordered a transfer of $3,500 from the contingencies fund to funds of the Soldiers' Relief commission.

Of that sum, $2,738 went for the purchase of a new car for the use of the veteran's service offcier, Harry S Vandervort. The remainder is for additional relief monies and expenses of service officers.

**Vandervort said up to now he has been using his own car to take veterans to veterans' hospitals as far as Cleveland and Dayton, and last year drove his car 16,000 miles for that purpose.**

The car will be used to transport veterans to Crile hospital, Breckville hospital, to hospitals at Dayton and Chillicothe and to the Soldiers' Home at Sandusky. Children of veterans are taken to the Ohio Soldiers' and Sailors' Home at Xenia.

A supplemental appropriation of $10,000 was made to the contingencies fund by the county commissioners. County Auditor Normal L. Wolfe explained additional taxes made the appropriation possible.

## Gloom Settles In Statehouse

COLUMBUS — (INS) — There weren't many cheerful faces in Ohio's ancient statehouse today.

The governor's office, the office of the secretary of state, and that of the attorney general probably will be restaffed with Democrats come January. The reshuffle may go right down through the ranks of stenographers and — yes, it's true — even porters and janitors.

But one pert little thing had an answer.

"After all, good stenographers are hard to get these days."

### *Says Bartender Has to Be Scholar To Settle Arguments In Taproom*

NEW YORK—(AP)—The taproom of today is going intellectual.

The customers have a thirst for knowledge as well as for the cup that cheers, and the ideal bartender of the future will be a man who won a Rhodes scholarship.

For the fine art of mixing a "missionary's delight" is less important to the man behind the bar than his ability to umpire the zombie arguments of his mixed-up patrons.

"They used to talk about politics and the weather," said Bill O'Brien, a young ex-sergeant now night whistle-wetter at a Bistro across from Radio City Music hall.

"But now you'd think they all were in training for a radio quiz program. They stand around arguing about how many lovers Queen Elizabeth had or who was the second man to sign the Declaration of Independence."

A nickel phone call to the New York public library will settle most of the disputes during the day.

**"But you need more than a telephone directory at night," said Bill. "We keep a two-volume dictionary for the word players, a World almanac, and a couple of sports manuals. But what we need is an atlas."**

It seems the barroom Marco Polos argue and bet most on matters of geography.

"The favorite trick still is to try to name the 48 states in five minutes," said O'Brien. "And only one of twenty can do it.

"Nearly everybody misses Idaho, Utah or Iowa—particularly Iowa. If we had the atlas we could show them on the map. Some don't remember where it is."

Other popular questions are: What is the second largest state? What is the second largest state in New England? What state on the eastern seaboard has the smallest coastline? What direction would you be going if you were traveling from the Atlantic to the Pacific through the Panama Canal?"

The correct answers—in Bill's bar anyway—are, in order, Montana, Vermont, New Hampshire and southeast.

**One customer caused no end of confusion by demanding to know the proper term for a stomach operation. He wouldn't accept appendectomy, and everybody was stumped. Including the customer, who'd forgotten it.**

But Bill boned up and is waiting for him to bring up the subject the next time he shows at this evening center of adult education.

"I'll give him a bellyful on stomach operations," Bill said. "There's gastroanastomisis or gastrogasthotomy, which relieves contraction between the cardiac and pyloric pouches.

"There's gastroenterotomy, an incision of the stomach or the stomach and intestine.

"There's gastropexy—to attach the stomach to the abdominal wall.

"There't gastrophication, if you want to fold back and stitch together the folds of the stomach to prevent dictitation—whatever that is.

"There's gastroentrostomy, an operation to form a passage between the stomach and the intestine.

"There's gastrorrhaphy, the job of sewing up the wounds of the abdominal wall or the stomach.

"There's gastrostomy—that's to make a permanent opening in the stomach to put in food.

"And there's plain old ordinary gastrotomy, if you just want to open the stomach to take out a nail you've swallowed.

"Yep, I'm ready for that guy. I dare him to come back."

I asked Bill what geographical question was most often asked.

"The regular customers ask who played right field for the Yankees before Babe Ruth," he said. "And the strangers want to know where the men's room is."

# Party Helps Lausche Get Return Call

## Support Factor In Vote Victory

COLUMBUS O (AP) — Frank J Lausche bush ha red executive who cast aside his role as an anti-organization Democrat upon election for a second term as governor of Ohio despite a general Republican trend

Lausche unseated Gov Thomas J Herbert Republican who beat him two years ago on the strength of a Republican whirlwind that swept the country The new governor will be inaugurated Jan 10 1949.

The mellow-voiced 52-year-old Cleveland attorney won election through a strenuous campaign in which he charged the present GOP administration with "inordinate" expenditures failure to keep its promises and "surrender" to pressure groups

Lausche served his first term as governor in 1945-46 He is the 24th governor of Ohio to serve more than one two-year term

**In contrast to previous campaigns in which he shunned the Democratic party to play an independent hand, Lausche became the king pin of the organization this year. That organization support, which he lacked two years ago, enabled him to return to office**

Surprising many of his close friends, the governor-elect even endorsed President Truman's campaign for election and the general program of the New Deal

He promised the voters that he would continue fighting commercial gambling practice economy in government, plump for more stringent control of strip mining and restore progress in the welfare department

Lausche said he would propose again to the legislature that the governor be empowered to remove from office any sheriff or prosecutor who fails to enforce anti-gambling laws The lawmakers ignored this proposal made by Lausche when he left office in 1946

**The governor's re election catapulted him back into public view as a "strong man" of Democratic politics in the middle west. He first received that recognition after only 12 years in public office.**

The governor-elect was born in Cleveland on Nov 11, 1895 the son of immigrant Slovenian parents

His boyhood days were never as carefree as those of his friends At the age of 12-years, his father and oldest brother died and Lausche became the head of the family. He worked in the Cleveland slums to help care for his mother and six other brothers and sisters.

SHELBY — Chester Monn, finance director, has asked city council to take action against 259 violators of down spout water drainage R H Metz down spout inspector, reports 711 violation cards were mailed at the end of a 90-day grace period

# Lack of Paper Menaces Press

BIRMINGHAM, England (U.P.)—Lord Iliffe, chairman of the Birmingham Post and Mail, described the newsprint shortage as "by far the greatest menace to freedom of the press" during a speech before the Birmingham and Midlands Institute.

"The freedom of the press is theoretically still inviolate. In practice it is limited in much the same way as freedom of movement is limited for a man who has sprained his ankle. The right to run, walk or jump is still manifestly his—but he can only hobble painfully on his way."

## Open Booth, Find Ballot Box Stuffed

PARIS, Ky.—(AP)—Deputy Sheriff John Neal said Tuesday morning a ballot box stuffed with 17 Democratic ballots was found when the polls opened in Clintonville precinct number 3.

The stuffed ballot box was reported first by Russell Day, Republican county campaign chairman, and later confirmed by Neal.

Day said B. Bates, a Republican challenger, inspected the box before voting started and heard something rattling like paper inside. Upon being opened the box was found to contain 17 ballots. Neal said the sheriff told him 16 were straight Democratic votes and one was Democratic except for the senatorship, the vote going to Republican John Sherman Cooper.

## Men Over 40 Hunting Jobs

CHICAGO—(U.P.)—The Men Over Over Forty club is getting desparate, Business is too good.

The club, formed during the depression, is composed of men over years of age, who have had executive or administrative experience and who are unemployed.

A non-profit organization, the club has placed more than 600 men in jobs. But now, according to club president C. A. Swanson, it has no backlog of men to fill the jobs.

Members must be unemployed and are required to put in six hours a day on the club's job-hunting program.

# Tyger Gridders Smash Offensive Marks

**Cuff Stuff**
By
Fred Tharp

*(News-Journal Sports Editor)*

RED WORTHLEY, Mansfield basketballer, is one of 25 candidates for the Ohio State varsity court squad.... Worthley is up from the junior varsity. . . . However, Coach Tippy Dye has every 1947-48 letterman back except Neil Johnston, 6-6 center who signed a pro contract. . . . That makes the probable first team read Dick Schnittker and Bob Donham, forwards; Bob Raidiger, center, and Gene Brown and Bob Burkholder, guards. . . . Ashland's Ted Jacobs is a first line sub. . . . The 1947-48 all-soph team broke even in 20 games and Schnittker set a new all-time Buck scoring record with 322 points. . . . Michigan made its first eastern football trip in 1892, playing Yale, Harvard and Princeton—the Wolverines lost all three games. . . . The Chicago Black Hawk hockey fans have real loyalty. . . . Chicago finished last the past two years in National league play.... So this year 12,000 season tickets were sold for an arena which seats 16,000. . . . This fellow don't know how right he was. . . . Back in 1887 a Kenyon college student wrote in the school paper, "Football is bound to become a great college game."

★

FRANK LEAHY has many of the characteristics of the great Knute Rockne. . . . He, like Knute, can get a team fired to great heights. . . . Against Michigan State this year, Notre Dame led only 12-7 at the half. . . . The team expected a royal roasting during the intermission. . . . This is what he said, "Men! YOU'RE the team that was rated No. 1 in the nation last week." . . . Frank left the dressing room without another word. . . . The Irish won, 26 to 7.

★

AGE SEEMS to be the thing in the baseball managerial ranks these days. . . . Ten of the 16 managers are past 50, and Connie Mack's 85 is not safe. . . . The White Sox signed Jack Onslow, 59, and the Yankees have put their trust in Casey Stengel, 57. . . . Joe McCarthy, 62, and Burt Shotton, 61, were brought out of retirement. . . . The other older pilots are: Billy Meyer, 55; Steve O'Neill, 57; Billy Southworth, 55; Charlie Grimm, 50, and Zach Taylor, 50. . . . The youngest of the bunch is Lou Boudreau, 31. . . . Naturally he won the pennant and series.

## Yes, Wes Let Us Worry About Pitt

COLUMBUS — (NS) — Ohio State Coach Wes Fesler is a man of few words and immediate goals.

Answering a questioner on whether highly touted freshman back Vic Janowicz will be on the first string next year, Fesler remarked that he thought that was just a bit of jumping the gun. He said quietly:

"We play Pittsburgh next Saturday."

## Draw Up Skeds

CHICAGO—(UP)—Big Nine football schedules for 1950, 1951 and 1952 will be drawn up by athletic directors and coaches during the conference here Dec. 10-13, Commissioner L. "Tug" Wilson announced today.

## Joe Miller Goes For 9 Touchdowns

With three games still on the schedule, Mansfield Senior high school footballers have already smashed every offensive mark put up during the 1947 season.

And it isn't just one of the backs getting in on the act. They're all going hot on this attack business. Capt. Joe Miller has counted 54 points while A. C. Jenkins has eaten up 636 yards of real estate. Hammerin' Harry Osbun led in both departments in 1946 with 42 points and 569 yards.

Osbun, who is a defensive man this season, also had the top average in 1947 with 6.8 while Lou Gregorio was second with 6.7. Jenkins, Gregorio, Tom Tucker and Miller all have connected for more yards per try this season. Tucker is tops with an 11.1 mark.

**TOTAL FIGURE**

The total ground offensive figure has hit 2,032 while the '47 leather luggers only went for 2,001 yards.

However, all of the offensive figures are under those put up in 1946. That's the year Ralph Majors compiled 1,329 yards on total offense, getting 895 on the ground. Ken Horvath was the leading scorer that year with 66 points in six games.

Unnoticed, perhaps, in the statistics is the fine aerial work of Paul "Pinky" Ferguson in the last three games. He has completed 11 of 18 passes for 139 yards. That makes his seasonal record 17 connections in 35 tries.

★

John Kramer, Mansfield attorney, and Coach Augie Morningstar shared speaking honors at last night's Tyger club meeting at Senior high. Augie said the Tygers went through a crisp ten-minute scrimmage yesterday. He said the biggest problem now is finding another defensive tackle.

The 79-year-old Kramer said the hardest thing in sports was to accept losses with the same grace we can accept winnings. "Although we should use our best effort to win in the field of sports, a true sport accepts the results of a game because he knows both teams can't win," he said. "Lessons taught by the loss to Massillon may be more important to the players than those coming from the win over Dayton Kiser."

Morningstar exhibited pictures of the Kiser contest instead of the Massillon game pictures, as announced.

By FRITZ HOWELL

COLUMBOS —(AP)— A total of 63,765,991 persons, an increase of 2,374,716 over 1947, saw America's 60 professional baseball leagues in action this year.

The major loops drew 20,943,345 —the National 9,793,027 and the American 11,150,318—and today George M. Trautman, president of the minors, announced the 58 leagues under his jurisdiction attracted 42,922,646.

Each of the Triple-A and Double-A loops drew more than 2,000,000 fans. With the Pacific Coast league soaring to 3,363,772, while three of the four Class A circuits went over the million mark. Only the brand new Central league fell under the coveted figure, its total being 498,789 paid.

## *Conn Battles Joe Louis In 6 Round Test*

CHICAGO —(NS)— Billy Conn smiled his dimpled Billy-the-Kid smile today and said:

"Joe Louis? I want to fight him so bad I'd light him anywhere. I'd fight him in my garage in Pittsburgh."

Actually, he is going to fight him in a garage in Chicago—an oversized garage called the International amphitheater—in a six-round exhibition match the night of Dec. 10.

That statement is subject to the approval of the Illinois Athletic commission.

"It's going to be my comeback," Conn explained. He dipped a long silver spoon into a strawberry parfait and said he weighed 190 pounds, more than ever before in his career.

"The last time I fought Louis," Conn elaborated, using the word "fought" loosely, "I was 182 pounds, and I was ashamed. After losing that fight in June of 1946 at Yankee stadium I was disgusted with myself. I wanted to square myself, and the way I felt then I wasn't quite sure how to do it."

Now, under the wing of Robert Jordan, an Oklahoma oil man who has undertaken to be his manager, Conn is coming back. Frankie Harmon, long-time promoter of athletic doings in Chicago, is putting on the amphitheater show next month.

## *Expect Full House*

ANN ARBOR, Mich. — (UP) — Michigan athletic officials reported today that a sellout crowd of almost 86,000 was expected to see the Wolverines tangle with Navy Saturday. The Big Nine defending champions will be out after their 21st straight victory.

Joe Grzibowski, first-string center for Syracuse this fall, is also their No. 5 man in the varsity crew during the spring.

## City 'A' Keglers Cut Wood In Fine Style; Englehorn and Willis Pace Individuals

The usually topsy-turvy City A league had an exceptionally wild session last night as fine individual and team scores were recorded and the high-flying league leaders were hauled down two games out of three. No fewer than half dozen bowlers hit the 600 honor roll.

Ace Cabs hit a 2661 team score but lost its undisputed league lead when it was unseated twice by Mid Ohio Amusement. Dr. Pepper moved into a tie for the lead with games of 996, 943, and 930 which defeated 36 Bar three straight times.

Carl Englehorn racked up the best single effort as he posted a 237-196-222—655. Fred Willis was not far behind with 643, while Aid Geiger had 234-199-189—622; Don Dancer, 617; Chuck McMullen, 613; Gerald Shafer, 610, and Bob Lynch, 606.

Several keglers just missed the charmed circle as they were stopped in the 590's. Gene Funston and Emil Schroeder both came home with 598, Jack Hanrahan posted 593, and Cliff Forsythe had 592. Others over 575 included: Jim Wallace, 589; C. Phillipon, 585; Bob Hilborn, 582; Joe Lam, 585; Oscar Tracht, 580; Jim Villella, 578, and Joe DeYarmon, 577.

Frankie Mitsch's Corner Store team put on the most impressive wood-cutting show in the final game of the night. After having lost the first two to Max Diner, the Mitsch men got mad and decided to do something about it. All five team members—Orlie Grable, Harold Selby, Frank Burton, Phillipon and Englehorn—cracked the 200 mark to roll up a team score of 1,048, easily the best of the session.

Deschner Cabs also had a fine 1,017 last game, helped along considerably by Gerald Shafer's 246. Fred Willis' 254 was the best single of the night, however. Dr. Pepper's 2,866 was high among the teams.

★

Bing Miller paced the Westinghouse A league with a 538 series on games of 200, 176, and 162. La-Mar Roose had 629, Stan Miller 523, and Richard Snavely, 514.

★

Tony's Canfield still holds a one-game lead in the Victory league but after last night's third game the pace-setters began to think maybe the pin boys were working against them.

Tony's took the first two from Ideal Panel but in the third game had a total of 24 splits to fall to a 640 total and a 140 pin defeat.

William Kerlin took individual honors in the league with a 169-171-209—549 series, followed by Corny Robinson, 545, and Jim Wolfston, 537. Elmer Meyers had 515, Earl Turner, 510.

★

Oscar Carpenter had a sweet middle game to pace the Isaly league with 548. His score read, 169, 213 and 166. Phil Deschner was second with 213-147-179—539 and Paul Zartman sr. had 177-174-164—515. Jack Henry had a 514.

★

Honors in the Dominion's Women's league went to Eileen Swank with 148-168-157—473. Sis DeWeese had 159-139-149—447 and Mary Melton, 158-112-144—414.

★

The Westinghouse "E" league leader was Keltner with 163-206-178—547. John Berlo trailed with 146-198-174 — 518, and B. McLaughlin came in with 147-178-179—504.

NEW YORK —(NS)— Frankie Frisch and Freddie Fitzsimmons

Both rose to fame on the Giants fold as coaches.

Both rose t ofame on the Giants under the late John McGraw; Frisch as one of the best second basemen of all time and Fitzsimmons as the star knuckle ball artist of his day.

Frisch abandoned his $17,500 job as a baseball broadcaster to get back in a monkey suit and Horace Stoneham, Giants' president, intimated today that Frankie will do about as well coaching.

## Senior High Harrier Team Knocks Off Springfielders

Mansfield Senior high school's cross country team raced to its most important victory of the season at the Coolridge course yesterday afternoon.

The Tyger harriers kept alive their three-year home course triumph record by handing a convincing 25-to-31 defeat on the Springfield Wildcats. The Tygers have now won five, lost one and tied one this season.

Springfield had not been beaten in eight meets this year, but could not dent the solid front of Paul Hammond, Rudy Sheetz and Alan Poorman. Hammond, the former football letterman and track star, crossed the finish line in 11 minutes and 23 seconds.

**TURNER WINS**

The meet was run on a wet course which retarded the runners somewhat. Tom Turner, the Toledo district champion from Union township, ran along with the teams to acquaint himself with the course. Turner led Hammond across the line by about three seconds.

Four Springfield thinclads followed the top Tyger trio while Jerry Gerrall of the Bengals finished eighth. Jack Howell was 11th and George Middlebrook came in 12th.

Both teams will be among the 17 competing for the state harrier title Saturday at the Coolridge course. Springfield won its district title while Coach Harry Mehock's harriers ran second to Waite in the Toledo district.

Senior high has run against four district champs this season, beating Springfield and Columbus West and losing to Waite and Akron East. The latter club is the pre-meet favorite. East was second in the state last year.

The scoring summary follows:

| Mansfield | Springfield |
|---|---|
| 1. Hammond | 4. Phillips |
| 2. Sheetz | 5. Boise |
| 3. Poorman | 6. Uber |

## Ray Mack's Speaker At Grid Fete

Ray Mack, former Cleveland second baseman and an All-Ohio football and basketball player in college, will be the principal speaker at the Johnny Appleseed football dinner tonight at the school.

Mack is now an engineer with a Cleveland machinery firm, having retired after finishing last season with the Chicago Cubs. He is probably best remembered for his arrival on the big league scene at the same time as Lou Boudreau. Boudreau and Mack came up together from Buffalo in 1939 and formed the Indian keystone combination until the end of the 1946 season.

Mack was then traded to the New York Yankees with Catcher Sherman Lollar for Gene Bearden, Al Gettel and Hal Peck.

Prior to making his name on the diamond, Mack was hailed as a great fullback at Case where he played in 1935, '36 and '37. He made All-Ohio the last two years in football.

## *Razzle-Dazzle 11 Tops Defense*

By BEN PHLEGAR

NEW YORK —(AP)— Georgia Tech's engineers, pastmasters at designing football razzle dazzle, are concentrating this season on nice simple stone walls, also of the gridiron variety.

The latest statistics, released today by the national collegiate athletic bureau, show they're doing the best job in the country.

The Tech line, which came along 10 years too late to be known as the seven blocks of granite, has given ground at the rate of a little better than one yard per try.

The team's overall defensive ability has held its six opponents to 795 yards in 321 plays, about 2½ yards per play. The engineers also have given up the lowest number of points this season—21. Florida, Tulane and Duke each scored seven points.

For the season Georgia Tech has allowed its rivals 132½ yards per game. It's also the best team against ground plays, giving up an average of 48 yards per game.

The national leaders:

Total defense Georgia Tech, 132.5 yards average yield per game to rushes and passes: North Carolina, 159.7; Army, 162.7; North Carolina State, 166.7; Maryland, 167.3; Northwestern, 171.2; Minnesota, 171.8; Arkansas, 176.7; Villanova, 177.7; Tennessee, 178.3.

# Ashland College 11 Seeks Best Mark Since '29 Sked

ASHLAND—The Ashland college Eagles play host to Bluffton college at Redwood stadium here Saturday afternoon in search of the best Ashland football record since 1929.

By their 19 to 7 routing of Kenyon college here last week end, the Eagles have now collected four wins and two ties against only one defeat. The only Eagle loss was at the hands of Heidelberg college, the current leader in Ohio small college football.

The Eagles won four games in an abbreviated five game season in 1945, but their best "full" season was in 1929 when they poured out six wins in seven contests.

The favored Eagles meet a Bluffton team that has won two out of six contests. Bluffton defeated Taylor (Ind.) last weekend, 6 to 0.

**TWO TOUGH BACKS**

If Bluffton has any win designs on a team that trounced them last season, 42 to 6, they'll have to stop two halfbacks that Ashland Coach George Donges claims are among the best he's ever had at Ashland.

Herb Hart, a hard-running freshman from Shelby, picked up 126 yards in 11 rushing attempts and ran back a pass interception for 65 yards and a TD against Kenyon. Warren Trompson, fleet-footed former Cuyahoga Falls high school star and a junior at Ashland, averaged 10 yards per try in 11 attempts.

Thompson has averaged 55 yards in 45 rushing attempts this season. Hart has averaged 6.5 in 9½ tries. The latter is Ashland's leading scorer with three TDs, four extra-point conversions and a field goal for a total of 25 points.

## *This Tailor Pays Much and Often*

DENVER.—(NS)—Football experts in Denver are costing a Denver tailor money.

Harry Bitman started a "pick ten" football game contest with a suit of clothes to be given the person who turned in the nearest correct list of forecasts for the scores of 10 grid games.

For the week ending Oct. 30 there were 412 perfect entries.

Bitman is paying up. The cost said to be $31,500.

## *Rain Hits Golf*

PINEHURST, N. C. — (AP) — Delayed for one day by rain, the 46th annual North and South Open golf tournament was slated to resume firing today with Chick Harbert, Glenn, Teal, and Julius Boros leading a field of 102 into the second round.

## Coach Wes Fesler Sets Heavy Drill For Bucks

COLUMBUS —(AP)— Coach Wes Fesler scheduled a heavy scrimmage for the Ohio State pigskin squad today as the Buckeyes prepared for Saturday's game with Pittsburgh.

Fesler said he expected Jerry Krall to be ready for the Panthers. Krall was bruised slightly in the Northwestern tilt.

ALL AGES today still thrill as they read the fantastic tale of the beloved Rip Van Winkle and the dwarfs of the Catskill Mountains. Their grandparents and parents actually knew Rip Van Winkle. They saw him impersonated by the great actor, Joseph Jefferson, on the stages of their favorite theatres.

Here he is shown in the studio of the artist, C. T. Webber, posing as Rip, and speaking his famous toast "May you all live long and prosper." There is no more appropriate sentiment than this—and no more delightful drink with which to offer it than Wiedemann's Fine Beer.
